In this fantasy action RPG, take on the role of a Tarnished hero and rise to become an Elden Lord. What is an Elden? A Tarnished person who has strong magical abilities, but who has been cursed by an Elden Seal. What is an Elden Lord? The one who has mastered the power of the Elden Ring. Crack. What is the Lands Between? The place where the powerful magic of the Ainsel was forged, and where three worlds meet. This game is the first fantasy action RPG developed in Korea in partnership with XSEED Games. "Over a Perfect World" • THE FOCUS OF ENCHANTMENT A vast world with complex and three-dimensional designs. The most important thing in this game is the stunning 3D graphical design. 1. THE CHARACTER It is a fantasy action RPG with a rich fantasy atmosphere, where you can create a unique character. You can freely customize your character's appearance and equip weapons, armor, and magic that best meet your play style. You can even combine a wide range of equipment and become a powerful warrior as you develop your character. 2. THE ACTION Enemies appear in various shapes. Encounter enemies with simple combinations, such as passing by a monster's blind spot. Exploration and gathering yield more benefits. As you proceed, you will encounter a huge number of enemies. Experience the thrill of fighting those enemies and conquer them! 3. THE SOCIAL With the Lands Between as the premise, the game features a unique story in which various thoughts about friendship intersect. You can search for the friend of a character that you are currently following and participate in their conversations. In addition, you can also develop your bonds with others. 4. THE ENJOYMENT In this game, there are various difficulties. You can successfully complete any difficulty, as you find the best combination of the items and characters that you use. So please, start your journey together with your friends and prepare for a great adventure! FOR INFORMATION ON THE UPCOMING PATCH 1.0.0:

Features Key:

Epic epic action adventure RPG where your decisions affect the outcome of the story
Play in real time with other people who are playing on the same server/room

The skill system of the Mana game engine
Explore dungeons as you encounter challenging enemy encounters
Unparalleled animation, characters, and backgrounds, which promise a timeless experience
Interactive rooms and dungeons featuring branching stories with hidden events
Cinematic, a first for the

Elden Ring

Screenplay - Life is Feudal "Many years ago, a mighty kingdom was destroyed by an army of orcs. It's a common story of war that's existed for a long time, but rarely are the wars and the players themselves given much thought to. Also, when the player character goes into that world and the story is explained, it's so rare that it's not the focus of the game. I have always loved the fantasy world I play games in and have always enjoyed role-playing games, so I decided to create an RPG that focused on the world. The results are like no other RPG in the world. We hear a lot about MMORPG games in the world. However, these games are relatively small and have a set story and world. They are not at all like the game I am describing. I wanted to create an RPG that focused on the world and how it would be in the real world and for the people living in it. The basic structure of a game is there, but it's explained in the way that would be in reality. The development team was small, but we completed everything by the end of the second year of development. There were really no bugs or issues to be found. In fact, the only things we needed to do were to improve the quality in terms of how the player felt about the game and whether it matched the standard of other RPGs. I was a game designer in a previous life and when I went to make an RPG, I already knew what I wanted to do. I wanted to create a fantasy RPG game and a world that was rich in details and take the player on a journey through that world. There are lots of story elements in the game, but, as in the real world, when the player experiences these, they are like the things that surround you day-to-day life. As a result, the world is filled with information and the entire process of getting into it is interesting. Players may be able to figure things out themselves and use that to their advantage in battle, but they would never know that. People often watch movies or play video games and think "That's not real", but, when I play a game like this, I get the feeling that it's the same thing. There's no way to say how or why, but it feels like it's something like that. The entire game is like an RPG, including the online bff6bb2d33
